Our toughened range offers the following features:

- Available in 4mm, 6mm and beyond thickness available.
- Specialist product hand manufactured – hand silvered and antiqued.
- 4-5 week production lead time due to labour intensive processes.
- Premium rate product due to specialist hand processing requirements.

*(We also offer a specialist fully custom Verre Eglomise antique mirror product – contact us for further details)*

# Miralite Range:

*(Quality at an affordable rate)*

Our Miralite range offers the following features:

- Affordability – lowest rate available out of the ranges we offer.
- A Limited but popular range of variety.
- Quickest production lead time - readily available
- Highest retained stock level out of all the ranges.
- Largest sheet sizes to cut from.
- Available in both 4mm and 6mm thickness.
- Machine produced (not available in toughened).

**Important – please note:** All samples of any antique mirror is a representation of the pattern.

*The process of creating antique mirror (being a chemical reaction) is random meaning whilst the design/ pattern is always the same, the way that pattern presents on each sheet is random.*

*The pattern may be more intense in some areas and less in others over each sheet of mirror.*

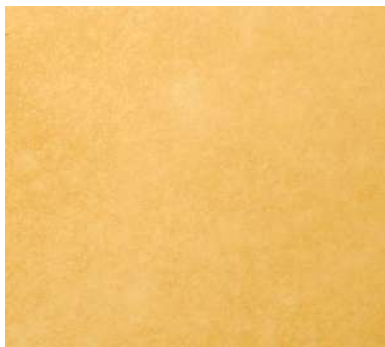

# Italian Range:

*(Extensive variety to suit all tastes)*

*ANCONA*

*ARGENT*
