Elegant Bespoke Mirrors

Product Brochure 2022/2023

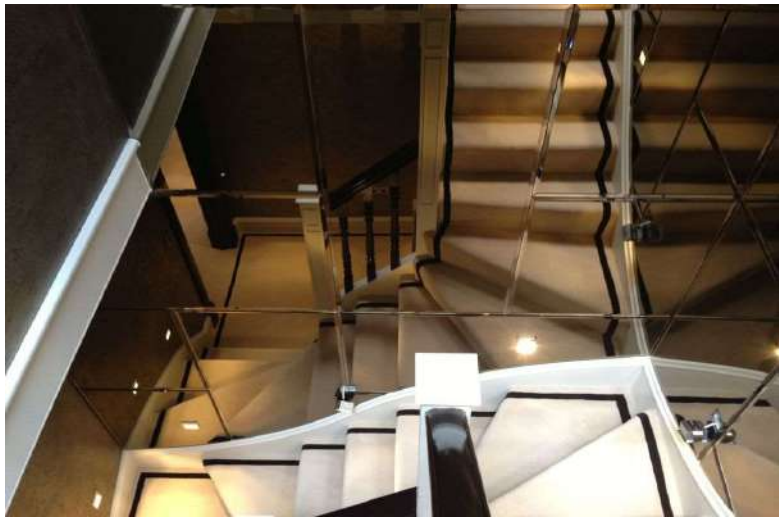

Elegant bespoke mirrors produced from the highest quality mirror available in the UK. Our Mirrors are made to measure for both trade and retail alike, with an extensive range and options to fit all aspects of mirror projects.

Established in 1967, Hamilton Glass Products has been known nationwide as mirror specialists and to date we have had the pleasure to produce mirrors for supply and install to suit a variety of projects for both domestic and commercial customers all over the country.

We have even been abroad for special high-end projects such as the Etihad offices in Abhu Dhabi.

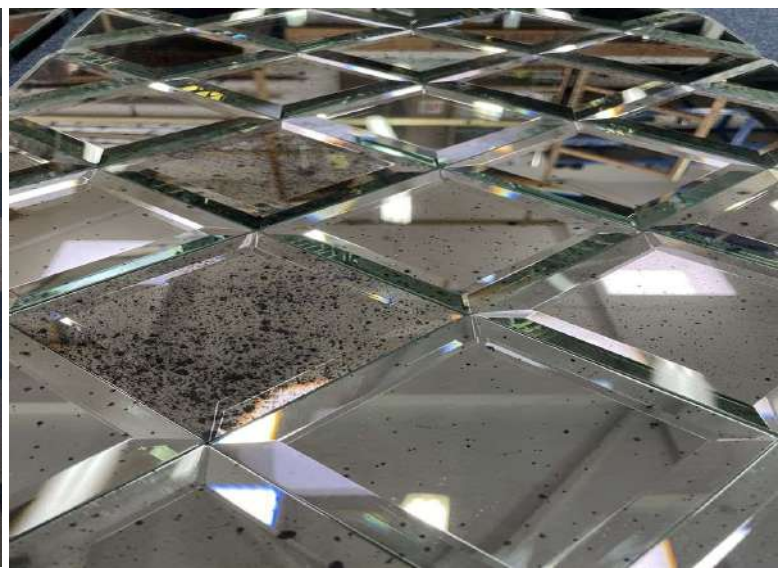

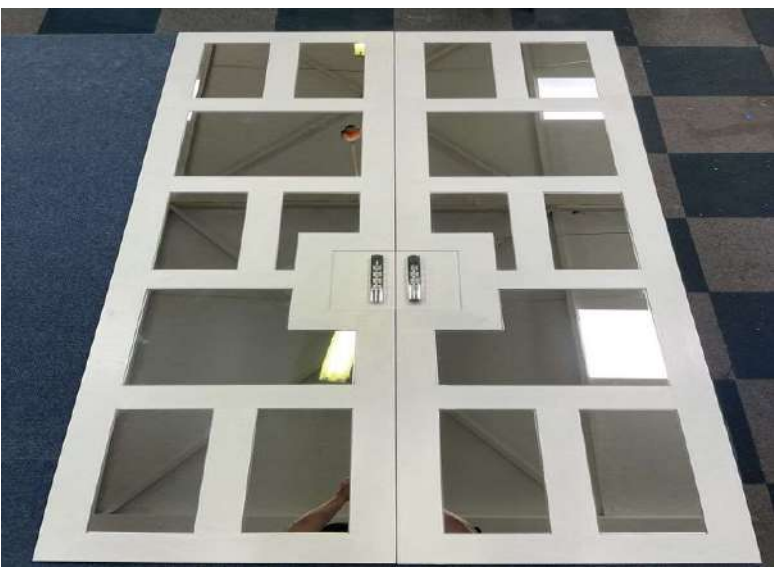

- All of our mirrors are made bespoke and come in either 4mm or 6mm thickness.
- Our mirrors can have either clean cut, polished, bevelled or scalloped edges.
- Can have foil safety or plastic safety backing, to provide B2B safety rating.
- Come in either standard silver, bronze or grey tinted or a variety of antique finishes (refer to our separate antique mirror brochure for the antique finishes).
- We also produce toughened mirrors in standard silver, tinted or antiqued available in 4-19mm thickness, this product is perfect for Splashbacks.

Mirrors can be used for an extensive range of projects from the typical bathroom mirror to splashbacks, feature walls, stairwells, gyms, cabinets, wardrobes and many others.

With over 50 years experience in producing bespoke mirrors we can manufacture mirrors with custom processing in a variety of ways such as decorative additions to the front, sandblasted designs to the front, blasting to the rear for light features and even the popular bordered mirrors as shown in the below images.

Our mirrors have been used in a variety of projects for both retail and commercial customers such as Gym walls, commercial stairwells, schools and even mirrors for theme parks such as Chessington World of Adventures, with whom we have had a great working relationship for many years.
